CANADIAN WHO'S WHO INDEX 1898–1984

Evelyn de R. McMann retired in 1978, having been responsible for the indexing of Canadian art for the Fine Arts and Music Division of the Vancouver Public Library for fourteen years. She also compiled *Royal Canadian Academy of Arts/Académie royale des arts du Canada: exhibitions and members 1880–1979*, published by University of Toronto Press in 1981.

This valuable index to the entire backlist of *Canadian Who's Who* volumes lists full name, year of birth, profession or occupation, and the volume or volumes in which each biography appears. The index lists over 33,000 names, with cross-references of name changes, pseudonyms, stage names, and the more familiar form of a name. Also indexed are the 1898 and 1912 editions of Morgan, *Canadian Men and Women of the Time*, a similar reference work later incorporated in *Canadian Who's Who*. This index will be a very useful companion to *Canadian Who's Who in Microfiche, 1898–1975*, also published by University of Toronto Press.

Preface

Canadian Who's Who was first published in 1910 by The Times Publishing Company, London, England. The late Alfred Leonard Tunnell, about whom there is virtually no personal information available, acquired the copyright from The Times in 1932, and the second edition was published in 1936, incorporating the 1898 and 1912 editions of *Canadian Men and Women of the Time*, a similar reference work edited by Henry James Morgan. From the 1936–7 to the 1973–5 edition, A.L. Tunnell remained the editor, and on his retirement in 1978 the University of Toronto Press acquired the publishing rights. *Canadian Who's Who* has been published annually since 1979, edited by Kieran Simpson.

Dr Henry James Morgan was born in Quebec City in 1842, and died in Brockville, Ontario, in 1913. He entered the Canadian public service and in 1873 was called to the Quebec and Ontario bars. He wrote a number of biographical and historical works and established the *Canadian Parliamentary Companion* in 1862, which he edited and published until 1876; he also edited and published the *Dominion Annual Register*, 1878–87. This index includes approximately 8,800 names from the two editions of *Canadian Men and Women of the Time*, some remaining in the volumes until the 1961 edition.

The 1936 and 1938 editions of *Canadian Who's Who* were co-edited by A.L. Tunnell and Sir Charles George Douglas Roberts, the famous poet, novelist, and historian.

Following the biennial editions of 1936 and 1938, publication was suspended until 1948, and from 1949 to 1973 the editions were issued triennially. In addition to the addenda in the 1949 volume, a second addenda was issued in booklet form, revising the entries but without including new biographies, and was distributed free to purchasers of the 1949 edition. The booklet cover announced a new biographical subscription service, to be issued five times during the years between the bound editions, to begin after the publication of the 1952 edition. Though not stated, the 1949 booklet was the first volume, with volume II of *Who's Who Biographical Service* issued from October 1954 to December 1956, and continued to volume IX, from December 1975 to December 1977. The first issue of each supplement volume was dated, but not numbered; the other issues were dated and numbered 1 to 4. With volume III the five parts were issued regularly each December and June of the two-year period of the subscription.

The majority of the content of the supplements was included in the next bound edition, but death dates were not. Unfortunately, the dates were neither consistent nor reliable, and varied from an exact date to 'died' or 'deceased' lacking any date, and some dates were incorrect by two to fifteen years. Many purchasers of the bound volumes did not subscribe to the supplement service, and most subscribers discarded the booklets upon receiving the following edition, which leaves an exceedingly small number of the complete series in library collections. For these combined reasons information from the supplements is not included in the index.

The 1979 edition encompassed the period from December 1975 to December 1977. The publication of annual editions has eliminated the need of a supplement service.

Considering the total content of 22,953 biographical pages, the percentage of discrepancies is low, but for research purposes it is advisable to check more than the last edition because many biographies were revised during the course of their entries, particularly those which were deleted, then re-entered several editions later but did not include all the information from the earlier volumes.

The necrologies in most of the volumes were scant and as unreliable as those in the supplements; therefore death dates have been excluded from the index. A few biographies appeared in the editions three or more years after the person had died. The deletion of a biography did not, in all cases, indicate the biographee had died, and the index notes biographies that appear again quite a surprising number of years after being deleted, the longest span of time being 1912 to 1955.

The index lists 33,230 names, with cross-references of name changes, stage names, pseudonyms, and the more familiar form of a name. The earliest birth date is 21 December 1799, for Gustave William Wicksteed, QC, writer; he has nineteen entries in the National Union Catalog of the Library of Congress, with the dates 1799–1898. The latest date is 25 January 1961, for Wayne Gretzky, hockey player. From abbot to zoologist there are more than seven hundred occupations.

The kind assistance and guidance of Ian Montagnes, Assistant Director and Editor-in-Chief, who launched the index and the microfiche edition of the volumes 1898 to 1975, Jean Wilson, Editor, Kieran Simpson, Editor of *Canadian Who's Who*, William Rueter RCA, Senior Designer, and Peter B. Scaggs, Production Manager, all at University of Toronto Press, has been greatly appreciated.

The Vancouver Public Library administration and members of the staff generously helped in many ways to make the work easier, and they have my sincere thanks and gratitude.

Guide to entries

The entries note the full name, year born, occupations, volumes: e.g., Brown, James Andrew, 1907. Hon, Manufacturer MP 52–70

Name variations

98, 10, Jane, 12	Duncan, Jean/Jane. In 98 and 12 the name is Jean, in 10 it is Jane.
38, 48–52, Greer, 55–64	Grier, Henry. In 38, 55–64 the name is correct, in 48–52 it is Greer.
48–49, Lang, 61–70	Clark, Mary Lang (m John Clark). In 48–9 the name is Lang, thereafter it is Clark.
61–64, H.G, 67–73	Ryan, Harold George. In 61–4 only the initials H.G. are given; the full name is in 67–73.
64, Mrs James, 67–79	Kent, Ruth Mills (m James Kent). In 64 the name is Kent, Mrs James, in 67–79 it is Kent, Ruth.

Different spellings of middle names, e.g., Ross, John Fraser/Frazer, are not indicated with the volume number as they do not misplace the biography.

Birth dates

1887/9	Both dates appear in the volumes.

Volumes

98–12	The biography is in 98, 10, 12.
98, 12	The biography is in 98 and 12.
36A, 38A, 48A, 49A	The biography is in the addenda of the volume.
52–5 (p106)–64	In 55 the name is not in alphabetical order on page 106.
48–	The biography is still included in 84.
67–84	The biographee died in 1984, or early 1985.

Guide to use of the volumes

The alphabetical order of names beginning with de, De, de la, La, Le, van, Van, von, and Von varies in the early volumes. Such names are usually grouped ahead of names without a prefix, e.g., de Blois is before Deacon. In 52 and later volumes the names are generally in one alphabet, e.g., Deacon, de Blois, Deeks.

Mac and Mc are alphabetized separately in the volumes, with Mc after Maz. In 98 Mac and Mc are after Myers.

A number of volumes have entries which simply list a name and refer the user to a previous edition. These entries are not included in the index, e.g., 36, 48–52; in 38 the volume entry is 'see 1936.'

Military ranks and other designations are maintained in the index though they may not appear on the first line of the biography in later volumes. Conversely, the index may note Col when earlier volumes have Maj.
